CHICAGO, Nov 7, (AP): It was a real dog of a ceremony this week during a swearing-in at the state's attorney's office in Chicago.

The newly sworn-in worker is a Labrador retriever named Hatty. The 2-year-old will be on a 9-to-5 human schedule. But she's being asked to work like a dog, to just do what comes naturally to most dogs: show affection.

Her job is to ease the strain of criminal proceedings on young children and those with mental-health issues who have been victims of assault. She'll handle up to 200 cases annually.

Hatty is the office's first emotional-support dog and was trained partly by inmates.

Cook County State's Attorney Kim Foxx presided over Tuesday's swearing-in. Hatty stood on her hind legs over a table and placed her paw across a law book as an oath was administered.

Donald Trump is the first president since **William McKinley** not to have a dog live in the White House. But next week he wants to honor one by bringing Conan, a military working dog injured in the successful operation targeting Islamic State leader **Abu Bakr al-Baghdadi,** to Washington.

But he wants to meet the dog, tweeting Thursday that Conan "will be leaving the Middle East for the White House sometime next week!"

No formal request for Conan to go to the White House has yet been sent and no visit is in the works, according to defense officials.

Pet dogs can now dine with their owners under certain conditions at Mississippi restaurants. The Mississippi State Department of Health's new policy went into effect Friday.

Restaurants must apply for a variance to the department's food code to allow the animals and pay a $165 inspection fee. Under the new policy, a restaurant must have a separate outside entrance into a designated outdoor dog-friendly area. Dogs, who must remain leashed, are not allowed to go indoors – unless considered a service dog.

A dog hit by a car in upstate New York rode for 45 minutes wedged between the broken bumper and the grille before the driver realized she was carrying an injured passenger.

Coco the shiba inu was being treated for a fractured elbow after being struck Monday morning in Albany.

Rotterdam Police Lt **Jeffrey Collins** says the driver knew she hit something and noticed the car's damage but didn't see the dog at first. She drove about 15 miles (25 kilometers) to Rotterdam before hearing noises and stopping to recheck her car's front end. She called 911 after she saw the dog gazing from below the license plate.
