Cricket Ground.

The Nelson Mandela Cup aims at celebrating and honouring the legacy of former President Nelson Mandela, in line with the objectives of the Nelson Mandela International Day and in accordance with the United Nations resolutions. It is also held in tribute to His Highness, the Amir of the State of Kuwait, for his recognition by the United Nations as a Global Humanitarian Leader.

As cricket is one of the fastest developing sports in Kuwait, the Mandela Cricket Cup will also serve as an inspiration to the upcoming young cricketers and contribute further to the development of cricket amongst Kuwaiti youth. Prominent local companies will be invited to inspire the youth and to display their products through exhibition booths.

School/Club teams interested to participate in the Nelson Mandela Cup should contact the coordinator of Youth Development of Kuwait Cricket, Mr MuraliKutticode at 99542107 or at muralikutticode@gmail.com

Children's Art Workshops: The Children's Art Workshop (CAW) is for

children ages 9-12; CAW Jrs is for children 6-8. The programmes are often combined, with slight adjustments in the projects to ensure that every participant is challenged in a creative way. In addition to introducing the children to multiple aspects of Islamic art and culture, the programme also includes activities that require the participants to further develop leadership, critical thinking, collaboration, creativity, and communication skills.

The sessions are open to the public and are free.

However, you do need to register your child/children by emailing info@damuseum.org.kw

Sessions schedule through December 9:30-11:00 am at the Amricani Cultural Centre.

Dec 5: Park-based poster project.

CS 21 CAW Tots activities begin: CAW Tots, Amricani Cultural Centre's programme for potty-trained children ages 3-5, has proven to be impressive or rather, the children participating have proven to be impressive. The CAW Tots idea is to take one subject and concentrate on it for six weeks, utilizing art, children's books, and discussions to reinforce key ideas. All these sessions are built around the Harvard University Graduate School of Education Artful Thinking Palette: observing and describing, comparing and connecting, questioning and investigating, finding complexity, exploring viewpoints, and reasoning. As a result, the kids, just 3-5, are not just glancing

at art, but really looking at it, thinking about it, talking about it and then, being inspired by it. All sessions are held at the Amricani Cultural Centre from 9:30-11:00 am.

Session One:
What is art from the Islamic world?
