Writing for children at DAI:

Writing for Children is a programme for 8 - 12 year olds, incorporating many aspects of the successful "Writing to Read" programme. During each six week programme, the participants will write and illustrate a story for children. The Carnegie Corporation completed a study a few years ago that concluded that increasing how much children write "improves how well they read." In addition, the children will have to figure out the best way to create pictures that help tell their story.

Each meeting will run from 3:30 - 4:30 pm. At the end of the six week session, two copies of a compilation of all the completed stories will be made for the children's library. In addition, one copy of each completed story will be printed and bound for the child.
