Diabetic in the family

The Ministry of Education emphasizes the importance of diabetes awareness and prevention. It encourages everyone, especially those with a family history of diabetes, to take steps to reduce their risk of developing the disease. This includes maintaining a healthy diet, regular exercise, and regular check-ups with healthcare professionals. The Ministry also provides resources and support for those already affected by diabetes, including counseling, support groups, and education programs.

Education and Awareness

The Ministry of Education is committed to educating the public about diabetes and its complications. It provides resources and information through its website and social media channels. The Ministry also partners with healthcare providers and organizations to offer diabetes awareness programs and events. By increasing awareness and understanding of diabetes, the Ministry aims to help prevent the disease and improve the lives of those affected.

Support and Assistance

The Ministry of Education is dedicated to supporting students from around the world who are in need of aid and support. It provides scholarships, grants, and other forms of assistance to help these students pursue their education in Kuwait. The Ministry also works to ensure that these students have access to the resources and support they need to succeed academically and personally.

With this statement, the Ministry of Education reaffirms its commitment to providing support and assistance to students from various countries who are in Kuwait on scholarship programs. It encourages everyone to join in supporting these students and advocating for their needs and rights.
