## h o r o s c o p e

### By Jacqueline Bigar

**Happy birthday for Thursday, May 23, 2019:** This year, you experience new possibilities coming into reality. Greet a fast change with optimism. You might need to oversee this situation more than usual. If you're single, you break past patterns and create a fast change in your love life. Make no commitments unless you are serious and only after a given amount of time. If you're attached, the two of you draw the unexpected in your domestic life. Maintain your home and stay sensitive to your sweetie. Aquarius can be more willful than you think.

The Stars Show the Kind of Day You'll Have: 5-Dynamic; 4-Positive; 3-Average; 2-So-so; 1-Difficult.

**Capricorn** - (Dec 22 - Jan 19)

\*\*\* Be aware of the costs of proceeding as

you have. You do not want to be surprised or find you cannot handle what is tossed on your plate. Let go and understand what is happening. A child or loved one does the unexpected. Tonight: Stay centered. Treat a loved one to a favorite dessert.

**Aquarius** - (Jan 20 - Feb 18)

\*\*\*\* Beam in much more of what you want. You could feel stressed out by a lot of what is occurring around you. Your domestic life takes a surprising twist. Adjust to the unexpected around your domestic life. Tonight: Stay close to home.

**Pisces** - (Feb 19 - Mar 20)

\*\*\*\* Your conversations could be pivotal in making a decision. Your upbeat attitude helps someone else speak his or her mind. Understand the depth of what this

person is saying. A friend might encourage you to halt and reassess an important matter. Tonight: Move with the moment.

**Aries** - (Mar 21 - Apr 19)

\*\*\*\* A meeting could prove more important than you think. What you hear works. You might need to make a major adjustment. Use care around finances because a mistake could easily be made. Tonight: Where your friends are.

**Taurus** - (Apr 20 - May 20)

\*\*\* Be careful with finances. You could feel as if someone is holding you back. Remember that you are your own person and can take a leap of faith. A boss or another higher-up could make an unusual demand. Tonight: Where the action is.

**Gemini** - (May 21 - June 20)

\*\*\*\* One-on-one relating draws success no matter the reason you are spending time with this person. You hear news from a distance or about a potential trip. Your in-laws could be involved. Go with an unusual opportunity. Tonight: Follow the music.

**Cancer** - (June 21 - July 22)

\*\*\*\* Defer to one person you work well with. Fatigue could be a strong element in making a decision. Take some distance from the issue, nap and then take another look. Tonight: Say yes to an offer that's too good to be true.

**Leo** - (July 23 - Aug 22)

\*\*\*\* You might feel as if you are juggling too much for your taste. What you do with the present situation could change because of several close associates and their decisions.

Do not feel locked. Look to adapt to a change. Tonight: Put up your feet and relax.

**Virgo** - (Aug 23 - Sept 22)

\*\*\* Follow through on a long-term goal. You have been circling this goal, but you need to be more active than you have been. Listen to someone at a distance who can and will make a difference. Open up to a potential change. Tonight: Squeeze in some exercise.

**Libra** - (Sept 23 - Oct 22)

\*\*\* Deal with a situation that inspires creativity and some detachment. You could be surprised by a partner's reaction and your decisions surrounding his or her reaction. You might want to find out what is drawing this strong response. Tonight: Be a duo.

**Scorpio** - (Oct 23 - Nov 21)

\*\*\* You are coming from a strong position. You might not want to change directions, but a roommate provides an excellent reason to do just that. Keep your eye on a domestic matter that could change suddenly. Tonight: Work with a disruption.

**Sagittarius** - (Nov 22 - Dec 21)

\*\*\* You might want to proceed in a different direction after a lengthy conversation. You might wonder how good an idea might be. Go with the moment and understand what this situation is drawing. Tonight: Join friends.

### beauty tips

face powder and oily skin

One of the main features of most face powder is its oil-absorbent properties. Both talc - and mineral-based facial powders settle on the surface of the skin and absorb surface oils. For women with oily skin, this can be a major step toward limiting the shine caused by their own skin, as well as some foundations. Powder can also be used for quick touch-ups during the day, allowing even oily skin to retain a smoother, matte appearance.

## Dear Abby

Man 'keeps' wife in the dark on his travel plans

By Abigail Van Buren

**Dear Abby:** I could use your advice on training my husband. He refuses to enter his work travel schedule on the household calendar. He snapped at me this week when he finally revealed that he was leaving Sunday. It took three more days to get the date he was coming back. It was like pulling teeth. It left me with only two days to decide how to enjoy the time alone. I suspect that he's withholding his travel data to keep me from enjoying myself too much while he's gone.

I think it's disrespectful to keep your wife in the dark until just a day or two before you leave. I need a way to motivate my man to share his travel dates earlier. I'm at the point where I'm tempted to ignore him and his travel since he is acting more like a child than a husband. I'm not his mommy, and I need to break his mean streak. Advice?

**- Kept In The Dark In Louisiana**

Abigail

**Dear Kept:** Stop putting yourself at your husband's mercy. You are both adults. If you need a break and would like to schedule appointments, see a play, visit with friends, go on a trip, whatever - schedule it regardless of when your husband will be traveling. And enjoy yourself.

**Dear Abby:** I have worked for the same doctor for 29 years. My 30-year anniversary is approaching. People think I should be ready to retire when he does. The problem is, I live paycheck to paycheck, and there is no retirement plan. What little money I had saved went out the window when I got a divorce a few years ago.

I know I need to quit and go somewhere that offers real benefits, but I feel like leaving will create a huge rift. I adore the patients, and I know they will ask him what happened. I don't want to seem ungrateful.

I know it's my fault for not demanding more earlier. I get depressed when patients tell me about their retirement plans, or I hear about his. I will be working until I die. I'm afraid he will take the staff out for a nice lunch to celebrate my 30 years, and I will be so sad or bitter that I won't be able to hide it.

**- Living Paycheck to Paycheck**

**Dear Living:** Talk to your boss about your dilemma now. In light of the fact that you have worked for him for so long, perhaps he will consider instituting a retirement plan now. If he is unwilling, then it's time to look for other employment with better compensation and hope you can find a match even if it means missing the luncheon.

**Dear Abby:** Please enlighten me on etiquette. My friend and I were out to lunch. While we were sitting there, she got on Facebook and posted about it. I think it was rude of her not to ask if I minded. It's not a secret, but why put it on Facebook? I don't understand why people think they have to advertise everything they do. Do they do it because they want to feel important?

**- Old-Fashioned Woman**

**Dear Old-Fashioned:** I am sure some of them do. Others may do it because they want to memorialize the occasion or think others are actually interested. If you preferred that she not do it, you should have spoken up, told her you are a private person and asked her to please not mention your name or post your image in the future.
