The bidding:

Opening lead — jack of spades.

Assume you are South and, as the result of some highly optimistic bidding by both you and your partner, you find yourself in six diamonds after the auction shown. West leads the jack of spades to East's ace, and East returns a heart to dummy's king. How would you play the hand?

When the deal occurred, the actual declarer led a diamond from dummy at trick three. After East followed low, South put up the ace,

dropping West's singleton king. Declarer then returned to dummy with a diamond to try the club finesse. When East turned up with the king, the vulnerable slam was home.

The question that arises is why South played the diamonds as he did. Normally, the proper play with this combination would be to finesse for the king. This offers a far better chance of succeeding, since with three cards missing, the king will be offside singleton only 13 percent of the time.

However, South recognized that he was not dealing with ordinary circumstances. In order for the slam to succeed, East had to have the king of clubs. East's preemptive three-bid and West's jack-of-spades lead had marked East with a long spade suit headed by the A-Q and not enough high-card values for an opening one-bid. If East was credited with the king of clubs, then he could not also hold the guarded king of diamonds, which would give him enough for a normal one-spade bid.

If the slam was to succeed, therefore, West had to have precisely the singleton king of diamonds. South proceeded accordingly and was duly rewarded by Lady Luck for his effort.

The objectives of the course are 1. Understand what leadership is from the Seerah of Rasoolullah and how to apply it in our lives today 2. Understand the purpose of our lives and learn to live that purpose with confidence 3. Understand the importance of connecting to Allah and learn how to do it 4. Understand how to leverage your strengths and overcome weaknesses 5. Understand how to articulate your life goal and create a road map to achieve it.
