

Five project-based agreements signed

Kuwait underlines commitment to continue humanitarian aid for Yemen

Kuwait diplomat urges exchanging Arab, regional expertise in science diplomacy

'Enhance int'l cooperation and ensure continuing education'

KUNA photo The Permanent Representative of the State of Kuwait to the United Nations Educational, Scientific and Cultural Organization (UNESCO) Dr. Adam Al-Mulla during his participation in the conference 'New Horizons for Science Diplomacy'.

PARIS, June 25, (KUNA): Kuwait's Permanent Representative to the United Nations Educational, Scientific and Cultural Organization (UNESCO) Adam Al-Mulla stressed the importance of exchanging Arab and regional expertise in science diplomacy.

He made the remark to KUNA following his participation in a UNESCO conference entitled: "New Horizons for Science Diplomacy", on Friday, organized in the framework of the French Presidency of the Council of the European Union.

Al-Mulla said that the conference was an opportunity for the participants to explore and learn "interactively" the most pressing issues in science diplomacy, tools and possible solutions, with experts of important bodies like UNESCO and the European Union (EU) attending.

Effective initiatives

He stressed that through his participation, he referred to the vital role Kuwait plays through effective initiatives and activities, and its efforts to enhance international cooperation and ensure continuing education.

He also pointed to the fourth goal of the sustainable development goals related to education until 2030, which is part of the United Nations initiative.

The InsSciDE project's concluding conference showcases more than four years of work, address ongoing transformations in science and diplomacy, and look to the future with the EU Science Diplomacy Alliance.

InsSciDE (Inventing a shared Science Diplomacy for Europe) is a Horizon 2020 project centered on historical research on science diplomacy. The project has developed a range of resources to support European science diplomacy theory and strategy and to facilitate policy action and training programs, to be displayed at the event.

BRUSSELS, June 25, (KUNA): Kuwait expressed its strong commitment to support and assist Yemen in humanitarian aid programmes to overcome the current humanitarian challenges facing the war-torn country.

This was expressed by Ghazi Al Mutawa, Acting Deputy Director of Operations for Arab Countries in Kuwait Fund for Arab Economic Development, at the fourth Yemen Humanitarian Senior Officials meeting co-hosted by the European Union and Sweden in Brussels.

"We always should be optimistic that sooner or later the Yemenis will have better and prosperous lives, and therefore we at the state of Kuwait and Kuwait Fund will continue to fulfill our commitments towards various projects," he told the meeting which met at a time when the humanitarian situation in Yemen is worsening due to rising global prices of food and energy.

He said that Kuwait Fund recently signed five project-based agreements with various UN agencies, and will continue its support in different provinces and to reach all in need in Yemen.

Efforts to prevent fishing in forbidden areas

KUWAIT CITY, June 25: The Deputy Director-General of the Fisheries Sector at the Public Authority for Agricultural Affairs and Fish Resources (PAAAFR), Nasser Taqi, revealed that the Maritime Control Department has installed monitor-

ing patrols in Naqat Al-Shamlan, Al-Khayusa, and Al-Rashdan, as part of the administration's efforts to track and monitor violators to preserve the fish stocks, reports Al-Rai daily.

In a statement to the daily, Taqi said recently, it was noticed that a group of fishermen entered the sea from Naqat Al-Shamlan and set off to Kuwait Bay and caught fish from forbidden areas in violation of the decision issued by the PAAAFR and the Environment Public Authority.

REQUIRED

Alghanim Automobile brings high-tech luxury car EXEED to Kuwait

Alghanim Automobile launched EXEED, the newest high-tech luxury car brand, in Kuwait's automotive market, in a special unveiling event that took place on Thursday evening at the Avenues Mall. Powered by the industry's brightest minds from automotive technology giant Benteler International and its research and development center in Munich, Germany, EXEED's VX and TXL models will remain on display in the Avenues Mall - Dome 3 until Tuesday, 28 June.

Visitors can experience EXEED's technologically advanced vehicles, all of which are carefully crafted by hundreds of the industry's brightest minds and expert designers. EXEED is available for immediate orders and will open its showroom, located in Shuwaikh, to the public in July.

Alghanim Automobile, an Alghanim Industries company, is proud to introduce the luxurious high-tech EXEED to Kuwait's market, building on a legacy that dates to the turn of the century in enriching the market with products and services that complement customers' growing tastes. As a household name built on decades of excellence, Alghanim Industries is happy to partner with EXEED, a company that shares core values centered between a customer-centric approach and a guarantee of exceptional quality.

In the innovative spirit central to the automotive industry, EXEED integrated the latest technological achievements to its line-up of luxury vehicles. EXEED powers its cars with exclusive technology, boasting a scientific edge on vehicular excellence. With an upper hand in providing superior architecture in its automobile

design, EXEED ensures its vehicles hold an evolved structure that offers greater safety and comfort.

EXEED's exclusive chassis delivers a car with an intelligent central frame collectively built by five of the world's best research and development centers such as Magna, Benteler, Getrak and BorgWarner. Modelled by the brightest automotive minds in the industry, EXEED's vehicular architecture comes with a flexible chassis system which fully applies to all types of vehicles from sedans and SUVs to multi-purpose

vehicles and electric cars. The EXEED system is equipped with Benteler's master chassis, BorgWarner's signature intelligent four-wheel-drive, empowered by Magna's iconic designs, and Getrak's superior safety software.

Equipping conventional fuel engines and a hybrid power of nine modes, EXEED vehicles combine stellar output mechanics with the highest fuel efficiency. Surpassing the market's usual V6 engine, the EXEED VX model, an all-wheel-drive SUV that is both spacious

and powerful, uses the internationally rated first-class 2.0 T-GDI engine famed in the automotive world as one of the best engines for a power-to-fuel ratio. The super-smooth experience EXEED brings customers is further enhanced with the world's first dedicated hybrid transmission that functions on a dual-motor basis, eliminating the fears of heavy and expensive gas use for EXEED drivers.

The exclusive metallic structure innovated by EXEED employs the highest degrees of safety with an intelligent fortress supporting the vehicle at all times. With hot-formed steel plates by Benteler, Germany's globally renowned automotive technology company, EXEED cars are fortified against the heaviest collisions with a matching internal security. Moreover, the EXEED TXL model, powered by a 1.6 turbo engine nestled inside a graceful body, is fitted with award-winning safety, breaking records in three China's New Car Assessment Program (N-NCAP) categories including pedestrian protection, occupant protection and operational security.

EXEED Alghanim offers 7 years of peace of mind, such as 7 years comprehensive manufacturer warranty, 7 maintenance services free, and 7 years Roadside assistance. Terms and conditions apply.

For more information, the EXEED team invites the public to follow the future of automotive technology on Instagram @EXEEDAlghanim to receive the latest news, showroom opening dates, vehicle arrives, and more. EXEED Alghanim can also be reached via their dedicated hotline by visiting their website: www.ceedalghanimkw.com.
